Hi there! I'm Jen. A Texas artist, with a passion for designing colorfully, captivating murals that transform spaces into worlds of beauty and joy. I uplift spirits and create a sense of wonder in each vibrant mural I paint. I love working with clients to bring their dreams to life by making their space truly unique and unforgettable!

Check out some finished Murals!

"Hey Y'all" AirBnB Entry

Austin, Texas

Talk about a fabulous welcome entry for your stay! This client is all about a fun, funky and inviting experience while staying in her gorgeous Austin AirBnb. The bottom right pic shows the original design, but upon arrival, we decided the background needed to coordinate with the livingroom wall, so change-it-we-did! Flexibility is key in design and it turned out so lovely!

"Howdy House" Backyard Fence

Georgetown, Texas

When you own the cutest retro-vibe AirBnB named Howdy House, you must bring Howdy into the design! This project was a true joy to bring to life, even in the hot Texas July heat. The retro colors and font mixed with a west-Texas landscape created an eclectic backdrop for all future guests to enjoy. It elevated the backyard to a new level of fun and relaxation.

Southern Gymnastics Club

San Antonio, Texas

New ownership of this amazing gym meant a NEW look for the girl's Team locker room. It was a fun challenge to incorporate their Lion Logo, the state of Texas, and their gym name with a floral, southwestern feel. Vibrant and energizing, it's just what these hard-working gymnasts need for encouragement before they get to work each day.

Girls Locker Room Mural

Castle Hills Elementary

Castle Hills, Texas

A true collaboration! With dreams of bringing this outdoor school space to life, I was tasked with designing and leading an inspiring mural for the 5th grade students to help paint. They LOVED it and so did I! This mural was exactly what the space needed to entice teachers to bring students outside to learn in fresh air. It's even inspired them to install a turf area with tables for easier use, like a classroom setting. This mural made all the difference!
